Up to PLN 2 Million for Business Development â??

Entrepreneurs in Lower Silesia can benefit from preferential investment financing under the Development Loan offered by the Polish Agency for Enterprise Development (Polska Fundacja PrzedsiÄ?biorczoÅ?ci). The maximum loan amount is PLN 2 million, and attractive financing terms can help businesses implement their investment plans and further develop

their operations.

The Development Loan is designed to finance investment projects aimed at supporting business growth. The funds can be used, among other things, for:

- purchasing new machinery, equipment and other assets,
- modernising infrastructure and technical facilities,
- expanding the scope of business activities,
- implementing new solutions and technologies.

This financing can provide significant support both for companies planning to scale up their operations and for those wishing to modernise their production or service facilities.

Under this financial instrument, entrepreneurs can apply for loans of up to PLN 2,000,000. The offer includes:

- interest rates of 1.5% or 3%, depending on the financing conditions,
- no additional fees or commissions.

Thanks to its preferential terms, this financing can be an attractive alternative to standard sources of investment funding.

Applications are accepted by the Polish Foundation for Entrepreneurship (Polska Fundacja PrzedsiÄ?biorczoÅ?ci). Before submitting an application, businesses are advised to familiarise themselves with the detailed financing conditions, eligible expenditure rules and application documentation.

Detailed information, the regulations and application documents are available on the Polish Foundation for Entrepreneurship website.

We encourage entrepreneurs from DzierÅ¼oniÃ³w and the surrounding region to explore this offer and consider using preferential financing to support the development of their businesses.
