

National level

Polish Development Fund (PFR) includes

packages of financial and non-financial services designed for a specific need. Its purpose is to create a complete market for raising capital and growth instruments at every stage of the development of a given venture. PFR operates in the areas of banking, insurance, investments, consulting in foreign expansion and the development of entrepreneurship and innovation.

The Polish Investment and Trade Agency is part of the PFR Group

PAIH helps investors enter the Polish market and make the best use of the opportunities available there. It guides investors through all the necessary administrative and legal procedures that occur during the implementation of the project, and also supports companies that are already operating.

In order to provide the best possible service to investors, a network of Regional Investor Assistance Centers - COIs throughout Poland has been created, which are aimed at improving the quality of regional services for investors, as well as providing access to information such as the latest investment offers and regional microeconomic data. The purpose of COI is to facilitate contacts between the investor and local authorities.

Polish Investment
& Trade Agency
PFR Group

Polish Investment and Trade Agency is the

first point of contact for a Polish exporter and foreign investor, where the entrepreneur will acquire the necessary knowledge to reduce business risk on a new market. The offices assist entrepreneurs at every stage of project implementation. They offer quick access to comprehensive information on the economic and legal environment of a business project. The agency also helps in overcoming administrative procedures for specific projects, developing legal solutions, finding the right location, reliable partners and suppliers.

Polish Agency for Enterprise Development

The Polish Agency for Enterprise Development (PARP) is a government agency reporting to the minister competent for the economy. It manages funds from the state budget and the European Union. The aim of the Agency's activity is the

implementation of economy development programs supporting innovative and research activities of small and medium-sized enterprises (SMEs), regional development, export growth, human resources development and the use of new technologies in economic activity.

PARP is involved in the implementation of national and international projects financed from structural funds, the state budget and multi-annual programs of the European Commission. PARP actively participates in the creation and effective implementation of the state policy in the field of entrepreneurship, innovation and adaptability of human resources, striving to transform into a key institution responsible for creating an environment supporting entrepreneurs. In accordance with the principle of "Think Small First" - "SME first", all activities of the Agency are carried out with particular emphasis on the needs of the SME sector.
