**Get a grant for cooperation with the Patent Office of the Republic of Poland. Take part in a free webinar and learn how to successfully apply and obtain up to 95% funding for the project "Intellectual property in your company".**

**Deadline: March 10, 2022. , time. 11:00 am**

Do you want to know the details of the project? Sign up today for a meeting with representatives of the Patent Office of the Republic of Poland "Protection of intellectual property of micro, small and medium-sized enterprises" - information

meeting! The Wrocław Technology Park in cooperation with the Patent Office of the Republic of Poland and the Main Information Point of European Funds of the Marshal's Office of the Lower Silesian Voivodeship invite you to the meeting.

The Patent Office of the Republic of Poland has launched an innovative project on a national scale for companies from the micro, small and medium-sized enterprises sector. Polish entrepreneurs can obtain funding to cover 90% or 95% of the costs of the intellectual property identification service.

Why is it worth applying for a grant?

A measurable effect of the co-financed service is a report containing recommendations in the field of intellectual property protection, "tailored" for a specific entrepreneur! By receiving the report, the entrepreneur will gain knowledge:

- how to protect your intellectual property, i.e. logos, trade secrets, inventions, design projects etc .;
- what benefits can it derive from the protection of intellectual property in order to increase the competitiveness of its company;
- how to obtain a patent,
- how to use copyright,
- how to construct contracts with employees.

Applications for participation in the meeting should be sent to the following address: pomoc @ technologpark [dot] pl (pomoc[at]technologpark[dot]pl) by March 8, 2022. Details will be given after receiving the application.

The project is financed under the Intelligent Development Operational Program, Measure 2.6 "Non-competition project of the Patent Office of the Republic of Poland", under the European Regional Development Fund.
