Do you know that feeling when you're trying to come up with yet another post, email, or ad - and it feels like your creativity has run dry? AI in marketing not only speeds up your work, but it can also become your most reliable creative partner. In this training, I'll show you how to use artificial intelligence to work more efficiently while protecting your time and creative energy.

Date: June 26, 2025

Time: 9:00 AM - 11:00 AM (CET)

What will you learn?

- How AI can support your daily marketing work
- How to use AI tools to generate content
- Ways to automate and schedule your marketing activities
- How to use AI to avoid creative burnout

Who is this training for?

- Marketers
- Freelancers
- Content creators
- Owners of sole proprietorships
- Managers
- Employees of marketing and PR departments
- Anyone looking to develop their digital and creative skills

Additional information

The webinar is free of charge, and all participants will receive a certificate of attendance.
