Artificial Intelligence is making bold strides into the world of graphic design – and it's worth learning how to use it, even if you're just starting your creative journey. During the webinar **AI in Graphic Design Step by Step**, I'll show you how to work with tools that boost creativity, speed up the design process, and simplify technical tasks. You'll see how to use AI to generate ideas, create visuals, and build your own compositions with tools like ChatGPT or Ideogram. This webinar is for anyone who wants to create faster, smarter, and with greater ease.

Date: June 26, 2025

Time: 11:30 AM – 1:30 PM (CET)

What will you learn?

- How artificial intelligence works in graphic design
- How to generate creative ideas using AI
- Step-by-step process of creating graphics with AI support
- How to write effective graphic prompts
- Tools that can speed up your daily design tasks
- How to prepare projects for print and social media

Who is this webinar for?

- Marketing professionals
- Graphic designers
- People looking for new design tools
- Anyone who wants to develop their creative skills

Additional info
