

The DzierÅ¼oniÃ³w Resident Card program continues to grow, offering an ever-expanding range of benefits. We are pleased to announce that two more local companies have joined the program today: Ready for Diet Catering Dietetyczny and Stolarczyk OKNA. The signed cooperation agreements mean new discounts and additional opportunities for residents to access the services of local businesses under preferential conditions.

The DzierÅ¼oniÃ³w Resident Card is an initiative of the Gmina Miejska DzierÅ¼oniÃ³w, aimed at building a strong local community and strengthening the

ties between residents and businesses operating in the city. Thanks to the card, residents can enjoy discounts, promotions, and special offers provided by program partners â?? ranging from health and recreational services to retail and home services. The inclusion of new companies is a testament to the growing interest from local businesses and confirms that the Resident Card is a real support for both customers and entrepreneurs.

The new partners represent different industries, making the programâ??s offer even more diverse:

- **Ready for Diet Catering Dietetyczny** â?? a company providing balanced meal box diets tailored to individual customer needs. By partnering with the Resident Card, residents can more easily maintain healthy eating habits in their busy daily lives.

- **Stolarczyk OKNA** â?? a company specializing in the sale and installation of windows and solutions that improve home comfort and energy efficiency. Their partnership in the program offers residents better conditions when planning investments in their properties.

The involvement of entrepreneurs in the program is not only a marketing initiative but also a sign of commitment to the development of the local community. Partners of the DzierÅ¼oniÃ³w Resident Card support the â??buy localâ? idea, strengthen the local economy, and contribute to improving the quality of life for residents.

The DzierÅ¼oniÃ³w local government continues to expand the catalog of partners and encourages more companies to join the program. Every new partner brings additional benefits for residents and is another step toward a strong, integrated local community.

Residents holding the Card can already take advantage of offers from the new partners. The current list of participating companies, discount details, and information on joining the program are available on the **DzierÅ¼oniÃ³w Resident Card website**.

We encourage residents to obtain the Card and explore the growing range of benefits designed specifically for the citizens of DzierÅ¼oniÃ³w.
