

As of April 14, the Social Insurance Institution (ZUS) has introduced another digital solution for businesses. mZUS dla PÅ?atnika (mZUS for Payer) is a mobile app that provides quick access to key information and selected ZUS services. Contribution payers can use it for example to check their ZUS balances, view employee sick leave certificates or submit selected applications â?? directly from their phone or tablet.

The new app is available to any entrepreneur as well as their designated representative (e.g., an accountant). Users can access both their own accounts and accounts for which they have been authorized.

The app has been tested by entrepreneurs and accountants. Based on their feedback, ZUS has implemented changes that improve the tool's intuitiveness and ease of use.

Key features of the application:

Using the app entrepreneurs can:

â?¢ check the balance on their payer's account,

â?¢ view information on employee sick leave (e-ZLA),
â?¢ submit selected applications to the Social Insurance Institution (ZUS), e.g., for a certificate of no arrears,
â?¢ submit a contract for specific work (RUD),
â?¢ independently create a certificate with ZUS data,
â?¢ contact the ZUS hotline as an authenticated customer,
â?¢ schedule an e-appointment or a visit to a ZUS office.

How to start using the app

The mZUS dla PÅ?atnika app is available for Android and iOS mobile devices. It can be downloaded exclusively from the Google Play Store and App Store at the following links:

Link to download the application - Google Play

Link to download the application - App Store

To use the app you must have an active eZUS payer account. After installing it on your smartphone or tablet, simply connect it to your eZUS account.
